

Abdul Rahaman

TECH ENTHUSIAST

PROFILE

Motivated and detail-oriented 3rd-year Computer Science Engineering student with a strong passion for software development and technology. Actively working towards becoming a professional software engineer by building a solid foundation in programming, problem-solving, and system design. Eager to contribute to innovative projects, learn from real-world challenges, and grow in a fast-paced tech environment. Quick learner with excellent teamwork and communication skills, committed to continuous improvement and excellence in the software industry.

OBJECTIVE

To enhance my professional skills, capabilities and knowledge in an organization which recognizes the value of hardwork and looking for an internship to gain practical industry exposure and enhance my development skills.

PROJECTS

Online Banking System (staruml(intermediate))

- UML Focus: Usecase, Class Diagram, Component Diagram.
- Concepts: User authentication, Database Management, Secure Transactions, Encryption and Security.
- Features: User module, Account Services, Transaction Module, Admin module, Security features.

Income Tax Management system UI (Figma)

- Designed a user-friendly interface for managing income tax records, filing details, and generating tax reports.
